Caution: the motor and power lines can be fixed by cable clamp according to actual use.

Operation Instruction

Key button

1. Long press the up/down buttons to adjust the height of the desk; The screen will show “bot” when the desktop runs to its lowest point; and it will show “top” when the desktop runs to its highest point.
2. key button: 1,2,3,4 are the four height memory buttons, long press the button about 3s can record the current height;
3. Press the 3 and 4 buttons at the same time, the RST reset indication will appear. Continue to press the "▼" down button until the lifting table lowers to the lowest position and rebounds to rise to a stop. The display shows the lowest height "bot", release "▼" down button, the reset is over and the table can be used normally.
4. The desk has two USB, one type-C ports, they can supply power to other electronics. Every channel can maximum output DC 5V/2.4A power when the desktop is stationary and will stop output when the desktop is running. It will resume output after 5s of inactivity.
5. Short press the “LOCK” button to achieve the child lock function, so as to avoid accidentally touch and guarantee the safety of children; The child lock button is switchable, screen will show “Loc” when the desk is locked.
6. Long press the up and down button to switch the sensitivity level. When the screen shows “A-0”, it means the anti-collision function is off, “A-1” means the anti-collision sensitivity is in level 1, “A-2” means the anti-collision sensitivity is in level 2, “A-3” means the anti-collision sensitivity is in level 3, level 3 means the highest sensitivity.

● Troubleshooting:
a. Reset: When the LED shows"RST" , press “▼” button until the desk reaches its lowest height and rebounds to stop, it means the reset has been finished.
b. When it does't work and the LED shows "E01" or "E02", please retry 18 mins later.
c. If the “▼” button does't work, please check the cable connection and then cut off thepower for at least 10 seconds. Reconnect to the power and press “▼” button to start the reset process when it shows the "RST".
d. If all these above process are inefficient, plz contact our customer service.
